## "Accidental Death With No Blame To Anyone" Was Jury's Verdict In Death Of William Pryde

Place Had Solid Roof and Was in Good Condition; Fractured Neck Was Cause of Death.

A coroner's jury enquiring into cause of death of William Pryde, fatally injured in the McGillivray mine on Monday, May 21, found that deceased came to his death by accident and that no blame could be attached to anyone.

Coroner Donald MacPherson presided over a jury comprising six Blainmore men: Magnus Oppell (foreman), Charles Shaw, John Angus MacDonald, William Gray, Matt Burrell and Per Naslund.

Dr. Haworth gave evidence of being called to the mine, seeing the patient and listen to him complain of a pain in his neck. The patient was taken to hospital by ambulance where further examination revealed a fracture of the cervical vertebra causing total paralysis of the lower limbs. A plaster of paris collar was moulded about the injured neck. Permission of the Workmen's Compensation Board was received to remove the injured man to Calgary. Death came to the patient at 9 p.m. Tuesday at about ten miles north of Macleod while enroute to Calgary.

Mack Stigler identified the body as that of William Pryde.

Arthur E. Graham, McGillivray engineer, presented blue prints of the place in which the accident occurred.

Peter Sprlak, partner of deceased, told of the two men having worked on their own sides of the room. At the moment of accident he was not looking at Pryde, but heard coal fall, he turned around and saw Pryde under some coal. Pryde told him he had been hurt. Sprlak stayed with Pryde and called for help, which was answered by his next place workers. The injured man was shortly placed on a stretcher and taken from the mine. Sprlak stated that the coal which did strike Pryde fell about a distance of two feet. He testified that the roof was solid.

Dan Lemecha, who worked near by Pryde's place, told of hearing Sprlak's cries for help. Upon arrival he saw Pryde half sitting with Sprlak holding him. There was little coal in evidence. Pryde had told him that his collar bone was broken. He was of the opinion that the coal which hit Pryde came from between the two miners.

Lemecha stated that there was little to indicate the seriousness of the injured man's injuries. Pryde having stated he could feel his arms and legs.

James Urwin, night fireboss, told of examining the place at 6 a.m. the morning of the accident and finding it in good working order and had reported same. He credited Pryde and Sprlak good men as regards safety.

Henry Urwin, day fireboss, had inspected the place at 8.30 that morning and had found its condition good.

Sprlak was called back to the stand to determine the time at which the accident took place. He estimated deceased received his injuries at 10.45 a.m. and that he was out of the mine before 12 noon.

After some deliberation the jury came back with the accidental death verdict.

## Funeral Of Wm. Pryde Held On Saturday Afternoon

Interment Made in Local Union Cemetery.

The funeral of William Pryde, fatally injured in a mine accident on Monday, May 21, took place from the family residence on Fourth street on Saturday afternoon.

The service was conducted by the Rev. W. E. Brown, both in the home and at the graveside. Pallbearers included J. Barclay, J. Balloch, R. Jenkins, J. Anderson, J. Duncan and A. Balloch. Interment was made in Coleman Union cemetery.

Despite the unfavorable weather a fair number of friends and acquaintances as well as representatives of the coal company and the miners' union were present.

Out-of-town visitors included deceased's sister, Mrs. A. Henderson, and husband, of Lethbridge; Mr. and Mrs. John Henderson and daughter Emily Jean, of Coultis, and Mrs. Tom Duncan, of Kimberley.

### CARD OF THANKS

We wish to express our thanks to all those who sent floral tributes, cards of sympathy, loaned cars and in any way helped during our recent sad bereavement. Thanks is also expressed to the doctors and nurses for their kindness while our brother was in their care.

The Pryde family.

FLORAL TRIBUTES: The family, Mr. and Mrs. J. Anderson, the

(Continued on Page 4)

## RED TRAIL ASSOCIATION MEETING TO BE HELD AT FRANK JUNE 15

R. W. Greenway, Lethbridge, has called a meeting of all interested organizations in the Pass, Pincher Creek, Macleod and Lethbridge for Turtle Mountain Playgrounds on Friday, June 15.

At this meeting an association will be set up to continue campaigning for improved road conditions throughout this area.

## FIRST CROW'S WAR CRONIES MEET

Lt. Col. Knight, commanding officer of the 41st (R) Field Regt., RCA, accompanied by Capt. W. A. Martin, training officer, visited Coleman last Tuesday (22nd) on military business. During his visit, Lt. Col. Knight learned that Bob Parry, who served in the same unit during World War I, was living in Coleman, and called on him, spending a pleasant hour talking over old times and recalling mutual acquaintances.

## Dr. Liesemer Reports On T.B. Clinic Results . . .

As a result of the TB X-ray Clinic held in Coleman recently, reports of these chest examinations have been sent to all those persons showing defects. By far the greater number were found among mine workers, who showed evidence of fibrosis in one or both lungs; in some, silicosis was suspected.

The tests revealed about 8 cases of suspected tuberculosis, with 3

or 4 showing an active condition. About 6 children were advised to have a tuberculosis test to determine their susceptibility to the disease.

The majority of these cases have been advised to be X-rayed at various intervals. No action on the part of these people is advised until definite instructions are received from Calgary or the local doctors.

## Art. Fraser Honored By Fellow Curlers

Presented With a Bulova Wrist Watch; Lions Club Honored Him Monday Evening.

Tribute was paid a progressive citizen and a grand fellow on Tuesday evening when members of the Coleman Curling Club met in the new curling rink waiting room to bid good-bye to Art. Fraser and present him with a small token of their esteem.

The evening's festivities got under way when President Andy Dow called upon the honored guest to receive the presentation. President Dow stated he regretted having to make this presentation to Mr. Fraser, who had decided to leave Coleman to accept another position near Edmonton. He would rather have Art. remain here for many more years to come. He gave the honored guest full credit for the new curling rink. It was Mr. Fraser who had promised his support to the president when the latter had spoken of a new arena. It was he who first saw it in his mind's eye, who then put the plans on paper and who drafted it in every detail. In addition he stayed with President Dow until the last nail had been driven into the arena early last winter. Mr. Dow then, on behalf of the club, presented Mr. Fraser with a handsome 17-jewel Bulova wrist watch.

Mr. Fraser, in reply, stated he was sorry to leave Coleman. He had had many good times in the past several years—hunting, fishing and curling. It had been a real pleasure to work on the new arena with so many good fellows and called upon the members to support President Dow in the work which remained to be done this summer. Mr. Fraser, for his size, was in his opinion the most active curling club in Canada. Following Mr. Fraser's brief address the gathering sang "For he's a jolly good fellow."

A good program had been arranged, Tom Kropinik giving out with piano accordion music, while Jim Moore gave several tunes on his bagpipes. Harry Harris and Frank Kyncl tap danced and a number of others gave impromptu numbers when called upon.

In addition, hot beef sandwiches, etc., were served to the gathering, which continued in merry tempo till the wee small hours of the morning.

### LIONS HONORED MR. FRASER

On Monday evening Coleman Lions Club paid tribute to Mr. A. A. Fraser prior to his departure to Edmonton, where he has accepted another position.

Mayor Frank Abousenay spoke of Mr. Fraser's fine work in the community, especially in sports activities. He credited Mr. Fraser for drafting plans for the new arena, of pulling his weight in the organization of Coleman Sports Association, of which he had been vice-president and later president,

## Organize Senior Ball Club; Enter Pass League

Softballers to Have Local Watch; Names Now Being Received by Ray Spillers.

Coleman will once again have a senior ball club and will compete in the Pass league.

This week a committee was organized to secure admittance into the Crow league and to line up players. Stuart Murdoch was elected president of the club, with Armaldo DeLuca secretary. Bill Gate was appointed business manager.

In addition to the hard ball team a softball league is being organized and official announcement is expected next week as to number of teams entered and when scheduled play will commence.

Ray Spillers is in charge of arrangements and anyone or any local group desiring admittance to a team or the league need only contact Mr. Spillers for further particulars.

### NATALIE MINUNZIE WINS CHAMPIONSHIP

Natalie Minunzie, gifted young mezzo soprano of Blainmore, won the senior vocal championship at the BC musical festival at Vancouver recently in competition with first place winners of the class "A" soloists. This is the third time that Miss Minunzie has been awarded top honors during the festival. She previously had obtained first place in the operatic solo open class and the mezzo soprano "A."

In the competition, Dr. Ernesto Vinci said of her singing in "O sleep, why dost thou leave us," Handel: "I can only praise everything she gave us. The difficult first phrase of the song had a master touch. She sang with a lovely quality of tone all through the song."

and doing his utmost to make Coleman a better place in which to live. Mayor Abousenay voiced his regret at Mr. Fraser's departure and described him as one of the real community workers.

Others who paid tribute to Mr. Fraser were Messrs. Harold Houghton, A. E. Graham, S. C. Short and A. Balloch.

In replying to the tributes paid him Mr. Fraser stated that he fully intended to come back to Coleman for a visit either when the hunting season was in full swing or when a curling bonspiel was being held in the Pass when he once again could enjoy the companionship and sportsmanship of his old friends.

### Going to Edmonton

Mr. Fraser left on this afternoon's train for Edmonton where he has accepted a position as assistant to the general manager of a coal mine a short distance from Edmonton.

Mrs. Fraser and family will reside here till the end of the school term in July at which time Mr. Fraser will return to aid preparations for the trip to the capital city.

## A. L. Smith Pledges Self To Fight To Place Western Coal On Eastern Market; Wyatt to Boost Highways

Progressive-Conservative Candidates Heard in First Coleman Meeting; Movies Shown of Bracken's Career.

Stanley Wyatt, Progressive-Conservative candidate in the Macleod federal riding, and A. L. Smith, candidate in Calgary West federal riding, addressed a political meeting in the Community hall on Wednesday evening. Maurice Cooke was chairman.

Mr. Wyatt spoke of his early experiences in the Pass, having laid steel through here early in the century. He stated Bracken was determined that the basic industries of Canada should have better representation than in the past.

He stood for better prices for the farm and better working conditions for labor, so that many would be comfortably well off and there'd be few rich. He had already placed the Pincher Creek to Maple Leaf road in front of Bracken and had advocated that it be considered a link connecting Canada's national parks, which would be a boon to the tourist industry through here.

He was in favor of a sane and practical coal policy. Central Canada imports coal from the Pennsylvania coal fields and he favored western Canada exporting ton for ton with the western States to match that imported in Central Canada.

The Macleod riding was among the richest ridings in the Dominion and yet had not been represented by a member of the government in twenty years.

### A. L. SMITH, K.C.

Mr. Smith was on firm ground throughout his entire speech, which dwelt mainly with the coal industry, miners and subventions. He is solicitor for District 18, U.M.W.A. and is in a position to know what the miner faces, what steps have and are being taken to help and the attitude of the federal government as regards the coal industry and subventions.

He voiced his confidence in winning his own riding of west Calgary, and voiced his intention of going to Ottawa to help the men who work underground. In this work he must have help and asked his audience's support in electing Mr. Wyatt.

He stated quite frankly that neither himself nor Mr. Bracken had a coal policy at the present time. He drew attention to the Carroll coal commission which is sitting at the present time. The report which this commission submits, should his party gain power, will be brought before parliament and from it a coal policy formulated for Canada. He stated that as far as the Pass coal field was concerned it was a question of markets, the CPR being the major customer today. His government would also have a complete re-examination of freight rates, not only for coal, but for all other goods, quoting instances where the freight rate varies according to the opposition met in certain areas.

As regards coal shipment subventions it was his candid opinion that these subventions be granted for a period of five years and not the one-year contract which exists at present, thus giving operators a chance of development of their mines over a longer period. Mining he described as a specialized business, wages for which should be paid accordingly.

He believed in the capitalist system and profit.

His party was opposed to company controlled unions and stated that only the most powerful and richest unions could talk on equal footing with the employers.

All parties were interested in Canada's future and thus had the same goals. Their only differences was in the method of achieving these goals.

Of Social Credit the Progressive-Conservative party differed with it on the matter of a national dividend and since it did not have sufficient candidates in the race it could not gain a majority. Of the CCF he stated that his

party and the CCF were as far apart as the poles. In the States Thomas had been trying for the past thirty years at least to win the presidency by the same arguments that are being put forth by the CCF in Canada. The States had turned it down.

The LPP leader, Tim Buck, had publicly stated his party will assist Mackenzie King to form the next government. Thus he had proved that the LPP was only a second string in the Liberal party.

Some of the worthwhile legislation brought into effect in 1944 by the Liberals had been promised in 1919, according to Mr. Smith.

The Conservatives and Liberals differed in the manpower problem. The Progressive-Conservatives would not ask those men who saw action in Europe to fight against Japan while 50,000 NRMA troops lived the life of Riley in Canada.

In conclusion he scored the Quebec Liberal who had attacked a member of the Bracken family for allegedly evading military training despite the fact that Bracken's son was the father of five children and worked in a munitions plant.

Of the 204 Progressive-Conservative candidates in the field, 92 of them are veterans of either the first war or the present.

A number of questions were asked on several subjects.

### ... V ...

## CLAN DONNACHAIDH SOCIETY DANCE A SUCCESS

The dance sponsored by the Coleman branch of the Clan Donnachaidh Society held Wednesday, May 23, in the Community hall was an outstanding success. The hall was filled to capacity and dancing to the rhythmic music of the modern hit tunes was enjoyed by all.

The proceeds have been used in securing part of the necessary equipment for the pipe band. However, an undertaking of this nature requires a large financial outlay and more money is yet required.

The next big event sponsored by the Clan Donnachaidh in Coleman will be St. Andrew's Night on Friday, Nov. 30. Please reserve this date.

### ... V ...

George Vincent, young son of Mr. and Mrs. R. Vincent, celebrated his birthday on May 20 with a party for a number of his young friends. Cake, candy, ice cream and other delicacies were enjoyed by the guests. A number of lovely little gifts were presented to George during the afternoon festivities.

## CLEAN UP CAMPAIGN

Citizens of Coleman are asked to clean all back yards and back alleys on or before, Saturday, June 9th, 1945. A police inspection will be made of all property after that date.

All ash cans must be kept in owner's yard.

Make our Town a Clean Town.

TOWN COUNCIL.

## Warning To Cyclists

As a result of complaints received by this council all cyclists must henceforth refrain from cycling on sidewalks, must use caution when coming onto main streets from secondary streets, must have lights and reflectors for night riding.

Failure to abide by these requests will result in serious consideration being given the question of licensing all bicycles within the Town of Coleman.

TOWN COUNCIL.

WORLD HAPPENINGS  
BRIEFLY TOLD

The British admiralty reveals that the battleship Queen Elizabeth was damaged by a torpedo in January, 1942.

The historic Jamaica Inn, old-time haunt of smugglers on Bodmin Moor in Cornwall, England, has been put up for sale.

Gen. de Gaulle has decided to place Hitler's bullet-proof Mercedes-Benz captured by French troops at Berchtesgaden, in a war museum.

Sir John Anderson, chancellor of the exchequer, told the House of Commons that a "safe" estimate of the war damage to Britain would be well over \$4,000,000,000.

Turkey has a ready market for Canadian manufactured goods, particularly machinery, Rikid Zorlu, Turkish legation official, said in an interview at Ottawa.

There were fewer fatal accidents on United Kingdom roads during last January than in any month for many years. The total was 335, compared with 560 in January, 1944.

Mary Churchill, daughter of the British prime minister, recently opened an auction sale of paintings by Paris artists for benefit of London children who are war casualties.

A message was sent from the Dominion office to the Newfoundland commission of government, paying tribute to Newfoundland's part in the European conflict, it was disclosed at London.

SUNDAY SCHOOL LESSON  
JUNE 3

BETWEEN THE TESTAMENTS

Memory Selection: Behold, I send my messenger, and he shall prepare the way before me: and the Lord, whom ye seek, will suddenly come to his temple: Malachi 3:1.

Lesson: Malachi 3:1. Luke 1:2. Galatians 4:4-5. Devotional Reading: Malachi 4:1-6.

MALACHI 3:1. Behold, I send my messenger, and he shall prepare the way before me: and the Lord, whom ye seek, will suddenly come to his temple; and the messenger of the covenant, whom ye desire, behold, he cometh, saith Jehovah of hosts. 2 But who can abide the day of his coming? and who shall stand when he appeareth? for he is like a refiner's fire, and like fuller's soap. 3 And he will sit as a refiner and purifier of silver, and he will purify the sons of Levi, and refine them as gold and silver, and they shall offer unto Jehovah offerings in righteousness. 16 Then they that feared Jehovah spoke one with another, and Jehovah hearkened, and heard, and a book of remembrance was written before him, for them that feared Jehovah, and that thought upon his name. 17 And they shall be mine, saith Jehovah of hosts, even mine own possession, in the day that I make, and I will spare them, as a man spareth his own son that serveth him.

LUKE 1:68 Blessed be the Lord, the God of Israel: For he hath visited and wrought redemption for his people. 72 To show mercy towards our fathers, And to remember his holy covenant.

77 To give knowledge of salvation unto his people. In the remission of their sins, 78 Because of the tender mercy of our God.

Whereby the dayspring from on high shall visit us. GALATIANS 4:4 but when the fulness of the time came, God sent forth his Son, born of a woman, born under the law, 5 that he might redeem them that were under the law, that we might receive the adoption of sons.

Solar eclipses occur more frequently than lunar eclipses.

LIFE'S LIKE THAT

By Fred Neher

"Poor Doc... he always has to play alone... every member owes him a bill."

The Truth Will Prevail

Bible Society Has Distributed Millions Of Copies Of The Scriptures

From the British and Foreign Bible Society report 1942-43 (the last issued on account of war) the following figures were taken:

"Since its foundation in 1804" the Bible Society has issued more than 532,544,000 copies of the Scriptures. Of these about 129,284,000 have been in English."

Interesting and revealing is the fact that the sole object of the B. & F.B.S. is to encourage the wider circulation of the Holy Scriptures "without note or comment."

Figures from the American Bible Society for 1944 show 12,403,541 copies of the Scriptures distributed—a record for this 129-year-old organization.

To the ordinary reader it would seem that shortly—at this rate—everyone in the world would know, first hand, the Scriptures as we in the free countries are privileged to read them.

There are, however, hundreds of languages and dialects for which translations have been and are being made. There is destruction of the Truth both wanton and accidental and so the work goes on, steadily, surely, as the Master would wish. Faithful followers provide funds that all may have the privilege without cost or any price of drinking from the fountains of truth and being renewed and upheld by the living Christ.

For Canada and Newfoundland the British and Foreign Bible Society offices are at 16 College Street, Toronto; general secretary, Rev. J. B. M. Armour, M.A.

Wheat Carry-Over

May Not Be Less Than Three Hundred Million Bushels

The concentration of the greater part of the world's wheat supplies in North America and the heavy demands which are now being made upon this stockpile have served to focus attention on the supply position of Canada and the United States. The Monthly Review of the Wheat Situation. With only three months of the crop year remaining in Canada, and despite the determined effort which is made to move the largest possible amount of wheat into export position, it would appear probable that the carry-over at July 31 will not be less than 300 million bushels. The minimum carry-over likely in the United States at June 30 has been estimated at 350 million bushels. This prospective combined carry-over in the two countries of 650 million bushels, while only moderately below the 671 million bushels carried over in 1944, is still the lowest mid-summer stock figure since 1940.

PAINT MAKES A DIFFERENCE.

Do the dormers in your house stick out too much? They can be made to look smaller by painting their faces the same color as is on the roof, so that visually they become part of the roof, making the house appear lower. If you want to increase the visual height of the house, paint the dormers the color of the side walls.

FOR SECOND TIME

When Walter L. Lye, a carillonist for 31 years, played the chimes from the tower of St. James' Cathedral on May 7, it was the second time he had signalled with the chimes a national victory. He also played them when the First Great War ended in 1918.

EX-FRENCH TENNIS STAR FREED—Jean Borotra (left), former French tennis star who at one time was physical culture minister in the Petain government, and Michael Clemenceau, son of the late French statesman, stand in the town of Innsbruck, Austria, after being released from a German prison camp in the Trofian Alps by U.S. Seventh Army troops. Borotra was arrested in Paris on May 10. The charges were not specified.

Widespread Looting

Polish Art Treasures And Museums Were Plundered

A Tass dispatch from Warsaw said that a document signed by Adolf Hitler had been found ordering that the crowns and scepters of Polish kings be taken to Germany for his own collection.

Describing the opening of an exhibition, "Warsaw Accuses," Tass said the Germans did not even spare a collection of Egyptian mummies in their widespread looting of Polish art treasures and museums.

"In search of gold they destroyed sarcophagi, broke up and threw away the mummies," the dispatch said. "The cost of museum collections of the Polish capital plundered and destroyed by the Germans runs into the billions of zlotys."

The exhibit shows mutilated pictures slashed by the Germans, broken statues, smashed pieces of valuable furniture, and pictures of pre-war palaces, squares and streets along with photos of the present ruins.

NO IMPORTED FOOD

Gen. Eisenhower has issued instruction that only in "extreme emergency" are Germans to be issued with imported food. Arthur Henderson, financial secretary to the War office, said in a parliamentary reply in the British House of Commons.

Voting is compulsory in Argentina.

Mined Enemy Harbor

British Light Cruiser Carried Out Daring Operation In 1941

The saga of the British light cruiser Manxman, which, in disguise, steamed boldly into an enemy harbor, mined it, and safely withdrew, has been disclosed.

The daring operation was performed "right under the noses of the Germans and Italians" in the harbor of Lagnoli, Italy, in 1941, and resulted in the sinking of "important Italian ships." Rear Admiral R. K. Dickson, the Manxman's former commander, said in a BBC broadcast.

The Manxman is the fastest ship in the Royal Navy. Admiral Dickson was told to disguise the vessel as the French cruiser Leopard, and within 24 hours. The effect was so realistic it fooled passing German planes and a real French cruiser which sailed nearby.

OYSTERS ON TREES

In Puerto Rico oysters grow on trees. If you rider oysters on the half shell you will find the small shells are warped and twisted, their backs covered with bark, and concave from clinging to the submerged limb or root on which they grew.

It is estimated that between 40 and 50 per cent. of the professional Japanese soldiers have studied English and that 25 per cent. speak it efficiently.

Strange Gift

Story Of A Trophy That Was Presented To Nelson

A newspaper report that the late Sir Hickman Bacon, premier baronet and eccentric millionaire, was found to have stored his coffin at Thonock Hall, Gainsborough, for many years recalls the curious story of a gift to Nelson.

After the Battle of the Nile, when the French flagship L'Orient was destroyed in circumstances best known by the poem about the boy on the burning deck, some of her timbers were recovered as souvenirs. Captain Hallowell, in command of H.M.S. Swiftsure, had a coffin fashioned from her mainmast and sent it to Nelson with an explanatory letter. It was, he said, his earnest wish that "when you have finished your military career in this world you may be buried in one of your trophies." Nelson was by no means upset at receiving such a strange present and gave orders for the coffin to be kept in his cabin. Later it was removed to London and stored with other goods by an upholsterer named James Dods, in Brewer street. It remained there until Trafalgar ended Nelson's career and was then used for its purpose, enclosing his remains in the crypt of St. Paul's Cathedral.—Manchester Guardian.

Not All Young

Wing Commander Wong D.F.C. When He Was Sixty-Eight

Is an airman too old at 40? Not at all. Nor at 50, either.

Acting Squadron Leader Charles Sherring of the R.A.F. has been given a D.F.C. for "courageously attacking any target"—at the age of 41. Sherring is a radio operator and air Squadron Leader W. S. Fielding Johnson, for instance, had to bail out after being hit by flak over his target. He is 52. That great warrior, Sir Arnold Wilson, M.P., lost his life at the age of 56.

And the most venerable of all this band of gunners is Wing Commander Lionel Cohen, who won the D.F.C. a year ago at 68. London Daily Express.

The Chinese have no alphabet, although attempts have been made recently to create one.

## OUR COMPLETE SHORT STORY—

### VANGIE RETURNS

— By —  
SALLY RANDOLPH

McClure Newspaper Syndicate

The night Dave Thorne's mother surprised him packing his bag to run off with Mary Mills, she had a heart attack and never left her bed after that. Dave didn't get married, of course. A few of the old women said it was his duty to stay with his mother, but most everybody felt that old Mrs. Thorne held the cruellest kind of tyranny over two young lives. And Mary and Dave just made for each other.

It went on like that for ten years. Dave growing out of his boyishness into solid, handsome masculinity. His store and his farm prospered. And more than one summer girl did her best to land him.

But they didn't compare with Mary, warm and serene, and just this side of being out and out beautiful. The years were kind to her russet hair, and some fund of inner strength kept her from having the pinched look that comes so often to the faces of women who wait. And the unique dignity of not talking—over, about Dave's mother and what she'd done to them.

And then at last Mrs. Thorne died one night and the town drew a sigh of relief. Now Mary and Dave would be married and begin the life together they should have had long ago.

But they reckoned without the return of Evangeline Clayton, who'd been a slim, brown-haired youngster when she captured a wealthy summer chap from the Lake Forest colony. She was freshly divorced, wished to be called Evie, and her hair was the color of ripe wheat.

"Why Vangie, you hair! It's dyed."

"Of course," she agreed airily. "Isn't it pretty?"

She proclaimed with equal frankness that she'd come home to lick her wounds.

When she met Dave on the post office steps her second day she looked up at him and said, "Wham! I'd forgotten there were men like you."

"Maybe there aren't," he said with his slow winning smile. "You look different, Vangie. Your hair—"

"If you don't like it, I'll change it."

"No. It's quite—quite lovely."

She was cute and gay and pert when she wasn't being kitten soft. But she was ruthless as they come. She just took Dave in tow and he loved it—a salute, sort of, to his new freedom. The town looked on aghast.

Except Mary. After a week she closed the house where she and her aunt lived and carried on a humming antique business with city dealers and summer folks—just tacked a note on the door. "Back August 1st."

Dave drove them over to Friesberg to catch the train—they had no car though Mary had always wanted one—and he came back sheepish and quiet. But Vangie fixed that. She planned picnics and moonlight swims

and the rest of the crowd would arrange parties in return.

But Vangie got to sure of herself. The first time she accepted an invitation for Dave without asking him, he went. The second time he didn't and the town knew he spent the evening taking inventory—a superficial gesture in midsummer.

Before the week was out, Vangie was running in there for cigarettes or fizz water trying to get back on the old footing. "Look, Vangie," he finally told her straight out, "one managing woman in a man's life teaches him a lesson."

"Darling," she said, "if there was anybody else in town to play with, do you think I'd be camping on your doorstep? We've had such fun and we can have a lot more."

But Dave was wary—and remorseful.

Mary came back on a Sunday afternoon. There were three of them in a spanking new blue convertible—Mary's aunt and a city fellow at the wheel with a good pleasant face and nice manners. Not cocky like some. They bought gas and all, stopped for supper at the Rocking Chair House. They laughed a lot and Mary looked happy.

Later that evening Dave drove to Mary's place on the edge of town but the car was still there so he went back home.

Just as regular as milking time, that blue car showed up and Mary all glowing and prettier than she had been in years, ran out to meet the fellow. They'd go for a drive and come back before dark. Dave's smile lost its spirit as it never had during all those years of waiting. And when Vangie tried to edge in again he'd brush her off faster than a derry.

The fourth evening just before time for the car to show up, he sent Tummar, the good-natured dim-wit up on his bike with a note.

Mary didn't send an answer but rehearsed Tummar carefully in the message that she'd come down to the store in the morning. The blue car came and went, and came back again pretty late that night.

And the next morning, Mary who'd never driven before in her life to any person's knowledge, parked the blue car neatly in front of Dave's store.

There's still conjecture about just why Mary bought that car whether she schemed the whole thing out to bring Dave around or whether she says, "Well, you surely wouldn't buy a car without learning how to drive it, would you?"

Anyhow it's mighty handy for her. She runs up with the baby to see her aunt most every afternoon. Good driver, she is, too.

## SELECTED RECIPES

### BROWN-EYED SUSANS

- 1½ cups seeded raisins
- 1 cup sugar
- 1½ cup water
- 1 tablespoon lemon juice
- 3 cups shortening
- 1 cup sugar
- 1 tablespoon dried orange rind
- 3 cups all wheat flakes
- 2 cups milk
- 3 teaspoons baking powder
- 1½ teaspoon salt
- 1 cup milk

Put raisins through food chopper. Cook raisins, sugar, water and lemon juice over low heat until thick. Cool. Blend shortening and sugar thoroughly; add orange rind. Crush cereal into fine crumbs. Sift flour, baking powder and salt together; mix with crumbs. Stir into shortening mixture alternately with milk; mix well and chill. Roll dough thin on floured board. Cut half with floured 2½-inch cookie cutter and half with 2½-inch floured doughnut cutter. Put teaspoonful filling on each plain cookie, top with round with hole in centre, press edges together with times of fork. Bake on lightly greased cookie sheet in moderately hot oven (425 degrees F.) 12 to 15 minutes. Yield: 2½ dozen 3-inch cookies.

Medieval surgeons used wine as an anesthetic, giving it to patients until they passed out.

## The Yellow Goldrush

Ten Thousand Men Now In The Gold Camp

According to Mr. Geo. F. Gordon, an Edmonton businessman and mining enthusiast when down East recently in search of diamond drill equipment, there will be a "gold rush" in the Yellowknife district like the days of the old "Klondike".

At the time of writing we know that airplane passages are being arranged for some 20 leading American and Canadian shareholders to visit mine properties early in June.

A returned visitor tells us that there are at least 10,000 men now in the Gold Camp and now that the snow has disappeared they are scattering to erect camps and set up drills though shortage of lumber and other materials may force postponement of some plans.

However activity this summer will be at an unprecedented pace. Claims staked number about 35,000 and about 100 have been formed with about 50 financed at least for exploration and drilling.

Mr. Geo. Caywood, a veteran prospector who was with Mr. Gordon in the East, said R.C.M.P. are stationed at strategic points of entry to make sure no persons are allowed into the district unless capable of looking after themselves.

Mr. Gordon feels that if more ore bodies are found there is good reason why a railroad should be built into the territory.

He says that steps are being taken to establish an assay plant and test mill, likely at Yellowknife, which will give prospectors quick reports on their findings. At present samples have to be sent all the way to Ottawa for assay.

## GARDEN NOTES

### Routine Care

If the garden is thoroughly cultivated up to early June, with all weeds dug under and hard lumps of soil pulverized, it will only need a few light cultivations during the remainder of the season to keep it growing and weeds in check. This light running-over is best done when the ground is soft after a rain.

One cannot grow good vegetables or flowers if plants are crowded together. Before growth is too advanced such things as carrots, beets, lettuce and self-sown or fine-seeded flowers should be thinned so as to permit proper and sturdy development. This thinning will also make cultivation easier and it will encourage quick, tender growth among the vegetables.

Bugs, fungus and other garden pests are easily kept in control if the proper sprays, consult a government bulletin or your nearest seedsman or florist, are applied immediately after first evidence of damage. Also, a healthy growing garden, well cultivated, well spaced and free of weeds, is far less susceptible to attack of any kind than the neglected sort.

Tall flowers and vegetables like delphinium, hollyhock, tomatoes, etc., should be staked and tied loosely to these stakes to prevent wind and other storm damage. Climbing sweet peas, nasturtiums and other similar things should be supported by brush, wire or strings.

To encourage continuous flowering, blooms should be picked freely in the case of sweet peas, pansies, nasturtiums, etc. and removed when faded in the case of flowers not ordinarily used for cutting purposes.

### Improving the Soil

To build up either light or heavy soil it is an excellent thing to dig in or plow under what farmers call "green manure". This is simply vegetable growth—weeds, grass or other crops like oats, rye or clover sown for this very purpose. Gardeners with a fair amount of land at their disposal often set aside a different portion each year for building up purposes. This is cultivated at ten-day intervals each spring up to about the first of July, then sown with a cover crop of oats, rye, clover, etc. Later when this crop is up 10 or 12 inches it is plowed or spaded under as green manure. Weeds, grass clippings, corn husks, pea pods and other garden refuse should be piled in a heap in some obscure place in the garden, covered with a layer of earth or rotted sods occasionally, and all allowed to decompose together. This is known as a compost heap and the soil thus made is excellent for flower beds and vegetable plots.

### OLD OPINION DISCOUNTED

The old opinion that eating between meals is harmful has long ground steadily. Efficiency experts in war plants have found that snacks during rest periods are beneficial to the general well-being of their employees. Energy food at mid-morning and mid-afternoon enables the workers to maintain a high production level.

### HAS NINE MOONS

The plant Jupiter has nine moons. Four of these satellites are so large that they have been seen with the naked eye. Exceptional eyesight is necessary for such a feat, however.

Before repainting over glossy enamel, it is as well to rub down the glossy surface with steel wool to remove the sheen and provide a better holding surface for the new coat of paint or enamel.

## An Amazing Feat

Underground in Netherlands Had Country-Wide Secret Telephone Service

One of the most amazing feats of the Netherlands underground movement that may be revealed today is the establishment of a country-wide secret telephone network linking up even small villages with the central posts.

The work was done right under the noses of the Germans.

The system was automatic and every one of the larger towns had its own central exchange.

When the Germans blew up the bridges across the IJssel river, thus cutting the secret telephone line, underground workers strung a new line, routing across in a small boat at night.

The Amsterdam engineer responsible for this feat told me:

"We even tapped the Germans' telephone lines. For instance, I heard the conversation between Hitler and the German chief of police in Holland, Walther Rauter, Sept. 7, when Rauter informed the Fuehrer that Brussels had been taken by the Allied forces."

The men who maintained this secret telephone network also tapped German teleprinter lines, thus gaining valuable information which was passed on to the Allied forces by means of the Dutch underground telephone lines.

## Combat Sawfly

Co-operation Of Farmers Needed To Fight This Insect Pest

Campaign against the wheat stem sawfly, which caused a loss to Saskatchewan farmers of \$18,000,000 in 1943, is being carried vigorously in districts of heavy infestation, according to a statement by S. H. Vigor, provincial field crops commissioner. Plans for the drive against this crop pest were formulated last fall, and a series of meetings have been held during the winter in the southwest areas of the province, where the sawfly menace is the worst. Provincial and federal agricultural experts co-operated in explaining to farmers best methods for combatting this insect pest. Effectiveness of the campaign will depend largely on the efforts put forth by the farmers themselves as best results are attained if the problem is attacked on a community basis.

Trap strips early seeding of coarse grains such as oats and barley, with wheat, sown later, is the system prescribed by the department as most efficacious for dealing with the sawfly. Late sown wheat becomes less infested than earlier sown wheat. This is a reversal of the usual procedure in seeding, but has been found most effective in fighting the sawfly.

## Girl's Easy Dirndl

By ANNE ADAMS

It's all done with drawstrings, at waist, neckline and sleeves! Pattern 4751 has no buttons, no placket; no shoulder, armhole or waist seams! What could be simpler to sew? Pattern 4751 comes in girls' sizes 6, 8, 10, 12, 14. Size 10 takes 2½ yards 35-inch material. Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send the order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man. Because of the slowness of the mails delivery of our patterns may take a few days longer than usual.

Bavenda tribesmen, of Africa, believe coughs and colds spill over the earth from the tilted crescent moon.

## MACDONALD'S BRIER

Canada's Standard Smoke

2022

This dotted bag means MORE EGG PROFITS TO YOU—

Every ingredient that goes into the dotted "Miracle" Laying Mash bag has been scientifically tested for balanced food value to give your laying hens everything they need for that "extra profit" egg production. For household food mix "Miracle" Laying Mash supplement with your farm gains.

IT'S OGILVIE—IT'S GOOD

## Farm Problems

A Film Which May Prove Important To Rural Audiences

Canadian farmers have faced the problems of both depression and prosperity in the 26 years since the end of the first World War. These problems and how they were met are the subject of "The Business of Farming", one of the films on the May and June program of the National Film Board Rural Circuit.

"The Business of Farming" shows the different factors that determine the farmer's costs both of living and of running his farm, and compares these costs with farm income in the years from 1926 on. All too often expenses exceeded the amount brought in by the season's crop—because the price of agricultural machinery never went down with the farmer's decreased ability to pay for it, and the market price of grain and live stock went up only with increased demand, and not with increased costs of production. During the hard years after 1929, surplus stores of grain steadily mounted in Canada's elevators, and cheques received for each year's crop shrank just as steadily. With the coming of war, the demand for agricultural products went up, but hired help and machinery became hard to get, and until the introduction of price control measures, higher operating costs absorbed most of the extra income. Today with costs pegged and increased production bringing greater returns, Canadian farmers are paying off mortgages and building up a reserve of capital for the years ahead.

An understanding of what lay behind farm difficulties in the 'twenties and 'thirties is important if past mistakes are to be avoided and present prosperity maintained. "The Business of Farming" was produced to review the chief features of this period and to encourage community discussion of post-war agricultural problems.

## Values Publicity

Life Insurance Companies Favors Newspaper Advertising Above Other Media

The value placed on newspaper advertising by life insurance companies was stressed by R. Leighton Foster, K.C., general counsel of the Canadian Life Insurance Officers' Association at a luncheon meeting of the Underwriters' Sales Congress.

Twenty-five years ago, the Canadian life insurance business began to advertise as an institution in the newspapers of Canada," he said. "It was a co-operative enterprise among the various companies, and its aim was to show Canadians how life insurance operates with its public and national characteristics and its benefits. That was the first institutional advertising done by any type of business, not only in Canada, but in the world. Although radio, motion pictures and other modern media have an obvious appeal, the foundation of our institutional public relations program has remained the press, and we feel that it will continue to be so. Each month now we are using publications with a total circulation of more than five million.

"Through our newspaper advertising we are trying to show Canadians what their life insurance is doing, and how well it is working without benefit of any government subsidy as a voluntary method of personal security at minimum expense, and with maximum advantages, under government regulation, but free from political influence."

### NEW INDUSTRY

A woman in Chilliwack, B.C., is reported raising silkworms on mulberry trees in her backyard and keeping her family in silk stockings. Still, we doubt if the culture of mulberry trees and silkworms will spread widely in Canada. Even under wartime conditions, it takes less time and energy to stand in a stocking line than to grow trees and silkworms and then do a spot of spinning—Edmonton Journal.

Total population of the British Empire is more than 800,000,000.

### BLITHE SPIRIT

The area around Victoria, B.C., is the only part of America where the skylark is found. The European songster, famous in the ode by Shelley, was introduced there some years ago and appears to be firmly established. In appearance it is much like the horned Canadian lark, except that it lacks the little tufted horns and has a striped breastband.

Overhanging eaves and deep porches are light thieves as far as the rooms they adjoin are concerned. Such shadowing can be cut to a minimum by painting the under sides of the eaves or the ceiling of the porch a light color.

## WHERE is That Mine ? ? ? ?

(Continued from Page 1)

Ballochs, Mr. and Mrs. Holyk, McGillivray Creek Coal & Coke Co. Limited, Coleman Branch Canadian Legion, Mr. and Mrs. James Barclay, Mrs. J. Denholm, James and John, Mr. and Mrs. Russell Vincent, Mr. and Mrs. S. B. Ryan, Mr. and Mrs. John Jackson, W. Keane (Hillcrest), Nellie, Jim and Goldie (Lethbridge), Mrs. Henry Jones (Hillcrest), Mr. and Mrs. R. Crichton (Hillcrest), Andy Orr (Bellevue), Mr. and Mrs. E. Cressman (Hillcrest).

CARDS OF SYMPATHY: Mr. and Mrs. Gordon Youngberg, Hillcrest; Mr. and Mrs. Luni, Hillcrest; Ray Steubaut; Mr. and Mrs. Roughhead; Mr. and Mrs. F. Boddington, Lethbridge; Mr. and Mrs. John Bell, Calgary; Mr. and Mrs. J. Anderson, Coult; Mrs. J. Sharpe, Lethbridge; Mr. and Mrs. P. Haggarty, Trail; Mr. and Mrs. Raymond Anderson; Faithful Rebekah Lodge, No. 93, Lethbridge.

## PTE. ROY GARRETT MENTIONED IN DESPATCHES

Last week a number of names of Canadian soldiers who had been mentioned in despatches during war operations was released by Ottawa.

Among the names was one from Coleman, Pte. Roy Garrett.

Pte. Garrett is the son of Mr. and Mrs. Bert Garrett and husband of the former Miss Eileen Fumfer, of Bellevue. He enlisted in Canadian army and following some months training went overseas in July, 1942. He saw action in Italy before being transferred to the western front late in the war.

## Rev. J. E. LeFort Celebrates Solemn High Mass In St. Cyril's Church, Bellevue

On Sunday, May 27, Rev. Joseph E. LeFort, recently ordained in Medicine Hat, celebrated a solemn high mass in St. Cyril's church, Bellevue.

Father LeFort entered the church in solemn procession, preceded by altar boys and attended by Rev. Dean Harrington, of Blairmore, as deacon, and Rev. L. Sullivan, of Coleman, as subdeacon. Mr. Rudy Sarchese, of Hillcrest, was master of ceremonies.

As the procession entered the main door of the church, the choir sang "Ecce Sacerdos," composed by Rev. J. Ronin, professor of sacred chant at St. Augustine's Seminary, Toronto, of which institution Father LeFort is a graduate.

Very Rev. Dean Harrington preached a most inspiring sermon on the priesthood, and stressed the need for vocations and urged both young men and women to seriously consider devoting themselves to service in the priesthood and religious life in answer to God's call.

A capacity congregation overflowed the church and all parishes of the district were well represented—Coleman, Blairmore, Bellevue and Hillcrest. At the end of the mass, Father LeFort expressed his thanks to the priests, the altar boys

and the choir for making the occasion a memorable event in his life.

The choir, newly formed just a year ago, excelled itself in the rendition of the mass. Consisting of some 25 members, its bass, alto, tenor and soprano sections blended admirably in the singing of every portion of the mass in four parts. Miss Frances Cardie, of Bellevue, is the organist and to her goes a great deal of credit for the good work of the choir.

The musical program for the occasion was as follows: procession, "Ecce Sacerdos," by Rev. J. E. Ronin; mass, the Mass of St. Elizabeth, by P. A. Kauffer; offertory, O Sanctissima; recessional, Holy God We Praise Thy Name.

The occasion was a very happy one for Mrs. Jos. Morris, of Bellevue, sister of the newly ordained priest. Mrs. Morris also contributed a great deal towards the forming of the choir, as she also is an accomplished musician.

Mr. Jos. Morris and Mr. Gordon Youngberg were ushers for the occasion.

Present at the mass also were Mrs. H. LeFort, mother of the new priest, and his sister, Miss Pilomena LeFort. Also present were

the Sisters of St. Martha, of Blairmore.

At the end of the mass, Father LeFort gave his blessing to each member of the large congregation.

## COLEMAN AND BLAIRMORE PROTEST MILK PRICE INCREASE

On Wednesday morning in the court house, Blairmore, Sam Bannan, solicitor for both the towns

of Coleman and Blairmore, acted for his clients, who protested increased price of milk in the Crows' Nest Pass.

The evidence was heard by the Board of Public Utility Commissioners, with Chairman Blackstock presiding.

It is understood that Chairman Blackstock will make known the Board's decision within the next week or two.

**BE PATIENT!**  
SOME GOODS ARE  
STILL SCARCE...

**DON'T CONFUSE THE SIGNALS**

War came. Most civilian goods had to be diverted to war needs. That caused shortages of civilian goods—that was the **RED LIGHT**

don't jump the **YELLOW** light

Some restrictions have been lifted, but war demands are still great. We must help our Allies and the liberated countries. We can't neglect them.

(This is the **YELLOW LIGHT ONLY**).

It does not mean the end of shortages. Getting back to peacetime production will be piecemeal and gradual.

Goodwill, patience and energy now will assure a prosperous Canada tomorrow.

it's **NOT** the green light yet

Only after Victory over Japan can the Green Light be switched on, and the road cleared for enough production to meet all our civilian needs.

THE WARTIME PRICES AND TRADE BOARD

**"This hired-man makes farm work easier!"**

Perhaps you've never thought of Imperial

Oil tractor fuel as a "hired man". But look at the photo above and see what modern power fuels and farm machinery lubricants can do, when combined with typically Canadian ingenuity. It's a home-made, but thoroughly practical Buck Rake that makes hay loading, hauling and stacking a "one-man job."

To keep all your farm machinery operating dependably and at top efficiency, use Imperial Fuels and Lubricants. Your friendly Imperial Oil Agent will deliver them to your door...but he should know your future needs NOW. By ordering in advance of your requirements your Imperial Oil Agent will be able to arrange deliveries so that you will be assured of having on time the products you need.

Free Government Booklet tells how you can build the Buck Rake shown above. Write for copy to Advertising Department, Imperial Oil Limited, 24 Church St., Toronto. Ask for booklet on "Buck Rakes".

FO. F. E. Downie  
Inspected Pass Air  
Cadets On Monday

Has High Praise for Efficiency  
of Coleman and Blaimore  
Squadrons.

A picturesque scene met the eyes of Coleman and Blaimore citizens who gathered at the Coleman sports field on Monday evening to witness the annual inspection of Coleman and Blaimore Air Cadet squadrons. The evening was almost perfect, the setting sun played light and shadow over the field and the surrounding hills looked beautiful in their green foliage. At the side of the field stood FO F. E. Downie, inspecting officer, on a platform from which rose the large air cadet flag which moved lazily in the slight breeze.

The cadets, smart in their uniforms and buttons glistening in the sun, marched briskly and with precision behind their officers, Fl. Harold Houghton, FO D. MacPherson and FO H. Allen, and to the music of the Cadet bugle band.

The drill was smartly executed and earned the praise of FO Downie.

Prior to the inspection, FO Downie, FO MacPherson and FO Bourne, the latter two from Blaimore, and members of the local air cadet committee were guests at the Lions supper meeting. Following the inspection the officers and a few friends gathered at the home of cadet chairman C. D. Rogers for a social evening.

## John Bracken says —

"It is not foreordained that farmers shall work for less pay than anybody else; or have their children receive only one-quarter the chance of a secondary education, or one-tenth the chance of a university education that other children get; or see their wives forced into lives of toil, often 12 but sometimes 14 hours a day — Sundays and holidays included . . . The trouble is that no one with the necessary authority has determined to correct the basic economic ills of Agriculture."

## BRACKEN WILL ABOLISH INJUSTICE TO FARMERS

John Bracken, the farmer, is not content, merely to point out the injustices of which he, and every other farmer, is only too well aware. He is determined to abolish these economic ills, these injustices, immediately and permanently. John Bracken guarantees definite **PROTECTION FOR FARMERS** against income collapse and wide extremes of income fluctuation:

- The Farmer shall be guaranteed a just and proportionate share of the nation's income.
- This will be done by a system of fair prices to be announced before the season of production. The farmer will then carry on with the assurance that he will receive a just share of the national income. He will thus

have money to buy farm implements and provide for comforts. His own living standard will be permanently raised and he will be able to contribute to community welfare.

- We shall re-establish a Natural Products Marketing Act.
- We shall appoint a Board of Livestock Commissioners in which shall be vested power to regulate and direct all aspects of livestock marketing in somewhat the same manner as the Board of Grain Commissioners regulates the handling of wheat.

These are only the highlights of the Bracken Party's pledge to Canadian farmers. Join John Bracken in his fight for farmers' rights.

### CONCRETE WALL PLACED AROUND CREEK AT THE LEGION GROUNDS

A strong concrete wall has been built along the east side of the Legion club grounds separating the lot from Nez Perce creek. The wall continues the full length of the east side and half way along the north side.

Soil has been trucked in along with manure and the 'cat will be used to spread it out. Last week the east wall of the club was stuccoed in order that it harmonize with the proposed facilities that will be placed in the Memorial Park.

## Wobick And Morrison Speak On C.C.F. Policies To Local Audience; Criticize King Government

**Morrison Predicts Conservatives  
Will Only Win 40 Seats  
Throughout Dominion.**

The CCF will bring in a new social order based on justice and humanity, stated O. E. Wobick, CCF candidate in the Macleod federal riding, at a meeting held in the Community hall on Sunday evening.

Mr. Wobick defined a true democracy as comprising a political, social and economic democracy. He claimed CCF socialist government to be in direct contrast to a capitalist government. During the past thirty years he claimed that ten years had seen major war, ten years of depression and ten years of capitalist prosperity.

Reading a newspaper clipping, which quoted an official of the Massey-Harris Company as saying that it was a dangerous practice to lead people to believe that following the war people would lead a life of plenty Mr. Wobick remarked that already signs pointed to a future depression. In order to defeat future depressions the speaker stated that we must socialize industry and the monetary system of Canada in order to perfect distribution.

Of Social Credit he stated that this party had sold out 100% to big business. The King government

he described as a Fascist government. King had voted for Argentina to get a seat at the San Francisco conference while Coldwell had been opposed.

P. N. R. Morrison, candidate for the CCF in a Calgary riding, went back the past sixty years under the capitalist system, 24 of which, he declared, has seen depression, 13 of war and 23 other years which he described as none too good. Today the people must choose to either go forward or backward.

The CCF had 206 candidates in the field, Liberals 230, Progressive Conservatives 240 and Social Credit 96. The main problems facing a new government in peacetime, was rehabilitation when two million new jobs had to be found.

Mr. Morrison then attacked the King government from 1935 to the present day. Following King, John Bracken then came in for his attention, declaring that Bracken had always followed the Tory party of Britain. He then quoted the

British Gallop Poll figures which today gives Labor 49% of the vote and the Tories 27%. The CCF had the solution — will take over the factories and make them run and the banks would be used.

It was his opinion that after the war a six-hour day would come into effect, pensions at 60 years of age, two weeks holiday with pay to all workers.

### MISCELLANEOUS SHOWER

Miss Mary Snider, a June bride-elect, was the guest of honor at a miscellaneous shower on Friday evening last, when Mrs. L. Brown, Mrs. Fredlund, Mrs. N. MacKinnon and Mrs. J. R. Kerr entertained at the home of the latter.

Seven tables of cards were in play during the evening, honors being shared by Mrs. Leisemer, Mrs. Ryan and Mrs. Jas. MacDonald. The travelling prize was won by Miss Snider.

Following a dainty luncheon being served, a decorated basket, laden with beautiful and useful gifts was wheeled in to the honored guest.

Miss Snider, in her able manner, thanked the assembled guests for the fine gifts and good wishes; and the hostesses for the enjoyable evening.

# Equality of Service and Sacrifice!

The King Manpower Policy —

"The Greatest Hoax ever perpetrated on a Nation."

*"It is a national disgrace and a blight upon the good name of Canadian citizenship. To give political considerations priority over the nation's interest is intolerable and unforgivable."*

*John Bracken*

Dominion-wide disunity is today the gravest danger facing Canada. The political abasement of the King Government's Manpower Policy reaped in wartime the seeds it sowed in peacetime.

"King or Chaos" of the 1940 election campaign has been King AND Chaos ever since. National unity, to which the King Government has paid only lip-service, was sold for political advantage in time of gravest national emergency.

THE PRICE CANADA HAS PAID for the unequal burdens of the King Manpower Policy is beyond measure. Army statistics tell the story. Tragically, the casualty lists bear mute witness to it.

THE PROGRESSIVE CONSERVATIVE PARTY HAS CONSISTENTLY CONDEMNED THE INJUSTICE OF A

PURELY POLITICAL MANPOWER POLICY. We do not hesitate therefore to describe the King Manpower Policy, and all the furtive political manipulations which characterized the administration of that policy, as a gross miscarriage of social, political and economic justice. As our forthright, progressive leader has said, it was — and is — "the greatest hoax ever perpetrated on a nation."

NATIONAL UNITY AND WELFARE MUST COME BEFORE NARROW POLITICAL ADVANTAGE. Divide-and-rule policies have no place in framing the basis for peace-time government. Only a party that will recognize equality of opportunity for all in time of peace as well as equality of service and sacrifice in time of war can solve the problem of national unity with the confidence of all Canadians.

**WE STAND FOUR-SQUARE FOR EQUALITY OF SERVICE  
AND SACRIFICE IN WAR; IN PEACE, EQUALITY OF  
OPPORTUNITY FOR ALL.**

## Security with Freedom!

**Your Vote on June 11th can bring lasting security  
to your work, your home, your family!**

### Security for your WORK

Here are some of the definite, practical steps taken by the Liberal Government to give security to home and family by assuring well-paid post-war jobs for everyone:

**For Veterans** — The most generous plan of any United Nation to get returned men started in the type of work each of them chooses. The Liberal Government is determined that every man and woman coming home to Canada shall return to the land of greatest opportunity in the world.

**For Workers** — About a third of all Canadians depend on exports for their livelihood. Liberal plans provide for increasing our exports 60% in value over those of 1939.

**For Farmers** — Acting on the belief that all Canadians prosper when farmers do, the Liberal Government has arranged that they can improve their farms and equipment under a new loan plan and has arranged to put a floor under the prices of farm and fishery products.

To stimulate employment for all, the Liberal Government has created a special Department of Reconstruction which is now in operation and which will co-ordinate private and public enterprise.

### Security for your HOME

The Liberals believe that the home is the heart of the nation. They aim to give Canadians every possible facility to build and furnish better homes! With Government assistance you can build a home in the country, town or city. This will make jobs for the building trades, and those who make building supplies — and those who manufacture household equipment and furniture.

**New Homes for Canadians** — The Liberal Government's new \$400,000,000 National

Housing Act, now on the statute books, enables hundreds of thousands of Canadians to get money at low interest and on long, generous terms to build, renovate or enlarge their own homes. Now that Germany is defeated, plans are already in operation for at least 50,000 dwellings.

Other practical, workable measures for the security of your home are the Liberal Government's laws for Unemployment Insurance and Liberal Old Age Pensions.

The Liberals believe in doing what can be done, as soon as it can be done. If returned to power on June 11th, they will carry on and expand the sound, constructive work already started.

### Security for your FAMILY

**Family Allowances** — Starting in July, parents who benefit least from income tax exemptions will receive Family Allowance cheques every month to help them get better food, clothing, shelter and education for their children so they can grow into healthy, vigorous Canadian citizens. These cheques will amount to between \$200,000,000 and \$250,000,000 a year. As direct spending power, this will do much to help in achieving the Liberals' objective of full employment.

**Health** — A National Health Plan will ensure that everybody shall be taken care of while they are sick and the best measures medical science can devise shall be employed to prevent disease.

Despite the efforts of Drew, Bruce, Bracken and other reactionaries, the Liberals are determined that human interests, the needs of men, shall be placed before "business as usual."

The Liberals have faith in Canada, a united country, and in their ability to continue to build, with your support, a more abundant life and greater opportunities for Canadians.

Help build this new order of security with freedom. Protect the social gains already made. Vote for your Liberal candidate on June 11th.

One Garage In Each  
Town To Remain  
Open On Sundays

All Pass Garage and Service  
Station Owners Held Meet-  
ing Last Night

Last night in Blairmore a  
meeting was held of all Pass  
garage and service station  
owners to discuss what pro-  
cedure would be followed due  
to the easing of gasoline sales  
restrictions by the oil control-  
ler.

The decisions arrived at call  
for each garage and service  
station to adhere to present  
week-day regulations, open at  
7 a.m. and close at 7 p.m.

One garage in each town,  
all taking turns, will remain  
open on Sundays from 7 a.m.  
to 7 p.m., starting June 10.

In Coleman The Motor-  
drome will remain open on  
June 10. On June 17 it will  
be either Sentinel Motors or  
White Rose Service Station  
depending on who drew that  
particular date.

SCOTTISH WAR GUEST WINS  
MUSICAL SCHOLARSHIP

A lad who came to Canada five  
years ago as a war guest from  
Scotland and a seven-year-old girl  
in Calgary were among seven ju-  
nior composers to secure awards in  
the eighth annual scholarship com-  
petition of the Canadian Perform-  
ing Rights Society, it was an-  
nounced yesterday.

To George Hurst, 18, the former  
war guest, now studying music and  
lecturing at the Toronto Conserva-  
tory of Music, went the \$750 schol-  
arship.

Constance Channon, 7, of Calgary,  
made a deep impression on the  
adjudicators with what they termed  
her "lively, precocious gifts."

Cash prizes of \$50 each were won

by Margot Ballon, Montreal; Clay-  
ton C. Rose, Aurora, Ontario, and  
Malcolm Troup, Toronto; and oth-  
er prizes by H. Lois McKenzie,  
Scotstown, Quebec, and Paul McIn-

tyre, Hamilton, Ontario.

The adjudicators were Eltore  
Mazzoleni, associate conductor of  
the Toronto Symphony Orchestra;  
Prof. Leo Smith, University of To-

ronto; Capt. J. G. Gagnier, Mus.  
Doc., Montreal; Godfrey Hewitt,  
FRCS, Ottawa; Hector Charles-  
worth and T. Jamieson, president  
of the society.

STANLEY WYATT, Rancher

Progressive Conservative  
Candidate  
MACLEOD RIDING

the Claresholm Municipal Hospital Board when  
he became a political candidate.

He is a director of the Western Stock Growers  
Association, and a director of the Community  
Auction Sales, a co-operative cattle selling agency  
in Southern Alberta. He is also a member of the  
Alberta Wheat Pool and of the United Farmers of  
Alberta.

A lover of the out-of-doors, he hunts and  
fishes. Deer and mountain sheep are among his  
trophies at his log cabin ranch house. On his  
ranch he also has a trout pool. He admits he is  
a great lover of curling.

He takes an active part in all community  
activities.

Interested in the improvement of Western  
farm homes, he believes farmers should have  
bathrooms, electrical appliances, mechanical re-  
frigerators, etc., and favors government assistance  
to do this. He has already discussed his pro-  
posals for rural home improvement with Mr.  
Bracken.

He also advocates: (a) Long term Bacon  
Contracts with Great Britain; (b) Opening of  
the Cattle Market to Chicago and St. Paul; (c)  
Sending Alberta Coal to the Western States, ton  
for ton in exchange for Pennsylvania coal coming  
into Ontario; (d) Simplification of the Income  
Tax Laws; (e) Encouragement for the Returned  
Men to settle on Good Farms . . . and other  
policies for which he has learned the need from  
his long experience in the West.

In the historic riding of Macleod, Alberta, the  
standard-bearer is Stanley Wyatt, who is known  
as the "Rancher Candidate". He comes honestly  
by this "handle" because he has worked on  
ranches and ranched himself since he was 18  
years of age.

When he was born at Jordan, Ontario, his  
father, Frank Wyatt, who was of English descent,  
and his mother, Catherine Davis Wyatt, of United  
Empire Loyalist parentage, christened him Hugh  
Stanley, but the Hugh never did stick. His edu-  
cation was obtained at Jordan Public School and  
at St. Catharines Collegiate Institute.

At the age of 16 he went west to Pincher  
Creek in the Crow's Nest Pass. He helped build  
the railway over the Frank Slide at the turn of  
the century, and in 1902 homesteaded at Claresholm.  
He still owns the original homestead,  
operating 800 acres of farm land and extensive  
ranch lands. He is a prominent breeder of white-  
faced cattle.

During the depression in the early thirties he  
was Mayor of Claresholm for six years. Prior to  
that he was a Councillor for the Clear Lake Rural  
Municipality for four years. He resigned from

## The Quality Tea

# "SALADA" TEA

## A Vital Industry

SCARCITY OF LABOR AND MACHINERY are problems with which all Canadian producers have had to contend since 1939, and it is unlikely that any other industry has been more seriously affected by these difficulties than agriculture. At the outbreak of war, several hundred thousand men and women left Canadian farms to enter the armed services or to work in essential industries. This created a critical shortage of farm labor at a time when it was imperative that production levels be not only maintained, but raised, to fulfill the increased demands for meat and other food products both at home and abroad. Figures show, however, that the number of men gainfully employed on farms increased from 985,000 in 1943 to 1,025,000 in 1944, and that in the same period the number of women between the ages of 14 and 64 living on farms rose from 765,000 to 780,000.

### Marketing No Problem Now

With the end of hostilities in Europe there will doubtless be a further easing of both the labor situation and the shortage of farm tools and machinery. Marketing, often a serious problem to farmers in normal times, is one with which Canadian farmers are not likely to have to deal for some time. Agreements now in effect for shipping beef, bacon, cheese, eggs and other foodstuffs to the United Kingdom will be in effect for two years, and the quantities of products required for this purpose are enormous. In 1944 food shipments from Canada to Britain included 80,794,650 bushels of wheat, 495,000,000 pounds of bacon, 5,629,659 barrels of flour, 128,872,500 pounds of cheese, 132,000,000 pounds of beef, and many other items. The British Ministry of Food has asked for as much of these products in 1945 as was shipped in 1944, and in addition, all the surplus beef and pork which can be supplied.

### Wartime Needs To Continue

As well as making these great quantities of food available for shipment overseas, Canadian farmers have produced enough to meet the needs of civilians here and also to supply the armed forces in the Dominion. There have been heavy demands on Canada's food supply during wartime, including the packing of Red Cross Prisoner of War boxes and the "virtualizing" of the great fleets of merchant ships departing from our harbors. These ships, often numbering two a week, have been supplied with food not only for the outward voyage, but often for the return trip as well, since they were frequently bound for foreign ports where food was scarce and could not be secured as readily as was possible here. Canada has also been shipping food to other United Nations, including Russia, Greece, North Africa and the liberated countries of Europe. These facts all show that farming in Canada has been a war industry of the first rank. They also show that although the fighting in Europe has ended, the Canadian farmer will have to continue for some time to produce on the same scale as he did during the war. It is to be hoped, however, that he will labor under less difficulty in respect to manpower and machinery as the country as a whole gradually reverts to more normal conditions.

### Polar Flying Tests

Scientists Will Make Flights Over The North Pole

An R.A.F. expedition has departed for Iceland to begin a series of flights over the Geographic and Magnetic North Poles for scientific purposes. The British air ministry announced.

The party is flying in the Lancaster "Aries" which flew around the world and toured America, Canada and South Africa last autumn.

Plans call for a flight over the land. Other flights will be made to Geographic Pole and return to Iceland. Other flights will be made over the magnetic Pole to Canada and from Canada over the Magnetic Pole to Britain.

The specific objects of the flight will be to study navigation conditions imposed by Polar flying, to examine behaviours of compasses, radar installations and other instruments and to collect magnetic and meteorological data.

The Lancaster carries special equipment and enough supplies to maintain the party for four weeks.

Wing Commander D. C. McKinley, captain of the plane, is in charge of the expedition. McKinley, a pioneer of the Atlantic ferrying service, flew Harry Hopkins on his trip to Russia.

It has been estimated that approximately 80 per cent. of patients who come to a physician's attention because of symptoms of tuberculosis already have dangerously advanced lesions.

The word "Sunday" occurs nowhere in the Bible.

### Cost Of War

May Take Years To Compute The Loss Of Human Lives And Material

The cost material and human—of the struggle to eradicate German militarism may take years to compute but some details have been released on the heels of unconditional surrender.

British war damage will be well over \$4,000,000,000, Sir John Anderson, Chancellor of the Exchequer, estimated in the House of Commons, while from the Russians came a rough estimate of the cost in human lives of their advance.

Matthew Halton, a CBC correspondent, quoted the estimate of a Russian general in Berlin that in saving their country and marching to triumph in the Reich capital the Russians lost 12,000,000 and 15,000,000 dead, about half soldiers and half civilians.

Precise figures of the high human cost to the Western Allies have not been given.

One hint of the monetary cost, however, was given in Washington by Henry Morgenthau Jr., United States treasury secretary, who said the cost of the United States part in bringing Germany to her knees and fighting so far against the Japanese had reached \$275,702,000,000.

The Royal Navy, stronger than it has ever been in history, paid heavily for its work in keeping the seas clear. Losses included 156 battleships, seven aircraft carriers, 28 cruisers, 126 destroyers, 69 submarines, 14 armed merchant cruisers, 28 corvettes, 10 frigates, 14 sloops, 51 minesweepers and minelayers and 255 smaller craft.

### Huge Flying Boat

Britain's Shetland Is Faster Than United States' Mars

Britain's biggest airplane the 85-ton Shetland, with a 110-foot hull has emerged from wartime secrecy.

The huge flying boat, designed for world wide patrol and reconnaissance, was described by Sir John Buchanan of Short Brothers, as faster than the United States' big giant Mars, although "not quite so big".

It was disclosed that one Shetland had been completed and successfully flown. A second, still under construction, is being re-designed into a 70 passenger transatlantic airliner—a two-decked cruiser with a promenade and cocktail bar among its features.

### British Vitality

Lowest Infant Mortality Rate Established In 1944

London reports the lowest infant mortality rate in the history of England and Wales was established in 1944, despite the fact that through most of the year a large area was under the attack of Nazi robot bombs and her hospitals and medical services generally were carrying the terrible burdens imposed by war.

Britain's birth rate for the year was the highest since 1926 and thus at the end of six years of total warfare, England will know the satisfaction that a new generation will some day be carrying on for her despite the blows which shook the Empire to its foundations. Boston Post.

## Price Control And Rationing Information

Q—I applied for my new ration book last week and when I received it found coupons had been removed. Are the clerks in the ration office allowed to remove these coupons?

A—Yes, the clerks are instructed to remove the coupons which became void before you applied for the book. The book only contains coupons from the date of application because it is taken for granted that a person does not require ration coupons until he or she applies for the ration book.

Q—Yes, my landlord has just given me a six months' notice to vacate the house I rent from him. He says he needs the quarters for his daughter and son-in-law. Can he do this?

A—Your landlord has given you the proper notice to vacate, on the proper grounds, but if the notice falls due any time between September 30th and the following April 30th you are legally permitted to stay where you are until next April 30th.

Q—Does brown sugar take the same number of coupons as white sugar?

A—Yes. One regular sugar coupon will purchase one pound of any kind of sugar. Each preserves coupon is good for half a pound.

Q—I am leaving for my summer cottage early in June and would be only too glad to rent my city home furnished for four months but I understand I have to give six months' notice to a tenant to vacate, and of course, I couldn't possibly be placed in that awkward position.

A—If you rent your quarters for a period of five months or less, you enter into what is called a "term certain lease" with your tenant, and can regain possession of your quarters without the six months' notice to vacate. You just reclaim your accommodation at the end of the period for which you have rented. Such a rental provision is absolutely necessary for keeping their homes and apartments while they are away for the summer.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

### SMILE AWHILE

Pupil: "What did I make in that test?"

Teacher: "Mistakes."

An English paper publishes this advertisement:

"For sale: Baker's business; good trade; large oven; present owner been in it for seven years; good reason for leaving."

Speed Fiend: "It's great speeding along like this. Don't you feel glad you're alive?"

Passenger: Glad isn't the word; I'm amazed!

She hasn't been sick a day in her life.

Gracious! Whatever does she talk about?

Father: "You ought to be ashamed of yourself, not knowing what you learned at school today. Willie Brown always knows."

Bobby: "Yes, but he hasn't so far to go home."

"Excuse me, constable," said the book-looking little man, "but I've been waiting here for my wife for over half an hour. Would you be good enough to order me to move on?"

Prospective Roomer: "This window is quite small. It wouldn't be much good in an emergency."

Landlady: "There ain't going to be any emergency, mister. My terms are cash in advance."

This is the way to write a thoroughly angry business letter: "Sir: My typist, being a lady cannot take down what I think of you, I, being a gentleman, cannot write it. You, being neither, can guess it."

Foreman—Excuse me, lady, but are you the one that's sirging?

Lady—Yes, I was singing. Why?

Foreman—Well, might I ask you not to hang on to that top note so long? The men have knocked off twice already, mistaking it for the dinner whistle.

A cranky old gentleman was seated at the counter in a cafe.

Waitress—We have everything on the menu today, sir.

Cranky Old Man—So I see. How about a clean one.

"Come, come, Joan, surely you know if the world is round or square? . . . Mary, tell her."

"It's crooked, teacher," said Mary, darkly.

# RIGHT for Canada's food needs...now more than ever

Every day more housewives find that ready-to-eat cereals play an important part in planning satisfying meals. They serve Kellogg's for breakfast, lunch, children's suppers, snacks at any time of day!

Pass the word along—they stay C-R-I-S-P!

Save Time...Save Work...Save Fuel!

PROMOTED—Sergeant Yvonne Campbell, Saskatoon, has recently been promoted to the rank of staff sergeant in the C.W.A.C. at Ottawa. S-Sgt. Campbell enlisted in July, 1942. She is at present employed in the Directorate of Organization, Ottawa, as Superintendent Clerk. A student prior to enlistment, Staff Sergeant Campbell's home is with her parents, Mrs. M. E. Cleveland, Saskatoon.

### REPORTED—

Major Mary Morrison, Red Deer, Alta., has been reported from No. 12 Admin. Unit, Ottawa, to No. 103 Depot C.W.A.C. at Kingston, Ont., as commanding officer. Captain Lois Botterill, Calgary and Red Deer, Alta., has been posted from Winnipeg to Regina as officer commanding of No. 3 Admin. Unit. She replaces Capt. Patricia Hamill, recently returned from a tour of duty overseas, who has been posted to Ottawa, replacing Major Mary Morrison.

### ENLISTED—

Miss Helen Margaret Nielsen, Butler, Man., enlisted in the Canadian Women's Army Corps at Regina recently. Miss Nielsen who has two brothers in the service, one overseas, was employed as a press feeder prior to her enlistment.

### MARRIED—

The marriage of Pte. Helen Kathleen Hanson, Bowell, Alta., to Pte. Gordon Belter, Yorkton, Sask., was solemnized in the C.W.A.C. Recreation Room at Sussex, N.B., on Saturday, May 5. Major J. R. Graham, District Protestant Chaplain, officiated. The bride and groom, both employed as drivers with A-34 Special Training Centre, wore military attire. Their attendants were Pte. Anne Stromplust, Paddockwood, Sask., and Pte. Paul Augustson, Hays, Sask. The wedding music was played by Cpl. E. A. Sayers of Sonningdale, Sask. The young couple spent their honeymoon at Yorkton, Bowell, Alta., and Vancouver.

### CWACS BACK FROM ITALY—

A contingent of CWACs who have been serving in the Mediterranean area have returned to England and are now thrilling their barracks friends with tales of rich experiences.

gained during their service in Italy. Sgt. Joan Allan of Winnipeg looks back on a joyous leave on the Isle of Capri; Cpl. Marguerite Hughes has a fine collection of postcards and souvenirs from such places as Naples, Florence and Pompeii. A model seaplane left by the Fascists when they evacuated a building is in the proud possession of Pte. Gerry Mumford of Halifax. Pte. Carol Thompson, Camduff, Sask., has the rich memory of attending a high mass at St. Peter's Cathedral in Vatican City, when the Pope officiated, and Pte. Margery French, Toronto, has collections of perfumes and lipsticks that would put a New York cosmetic shop to shame.

### CWAC SPINNS LEAVE WITH "MAY" MOTHER—

Cpl. Patricia Claff, C.W.A.C., recently saw her mother, invalided home from service in the Pacific, for the first time in more than a year. Her mother, Lt. Ruth Wallace Claff, U.S. Army Nursing Corps, wears the South Pacific ribbon with two stars for service in New Guinea and on Leyte when American troops invaded the island in January, 1945. She became seriously ill there and was ordered home. Following several weeks hospitalization, she was given a leave which she spent in Ottawa, where her C.W.A.C. daughter is stationed. Prior to her enlistment, Mrs. Claff was a registered nurse in Weymouth, Mass.

To young to join any of the American women's services, her daughter Cpl. Claff enlisted in the C.W.A.C. in November, 1943. She was a student at Katherine Gibbs Secretarial School in Boston and made her home with her father, Chester Claff, in Randolph, Mass., prior to that. At present employed as a clerk in the Directorate of Trades Training, Cpl. Claff plans to attend business college in Canada after the war.

### SHIELL SAY IT EVERYTIME—

CWAC Question Mark (post war variety): Are you going to the party tonight?

Ponelope CWAC (also post war): I don't know. What's the order of dress?

### GOING HOME

Germans are returning by the thousands to the ruins of Berlin where 20 Russian administrative districts have registered 2,000,000 inhabitants. Despatches from the fallen capital said streets are crammed by returning residents arriving in carts, wagons, on bicycles, etc.

There is a greater variety of fish in the Nile than in any other river in the world.

## YELLOWKNIFE SPOTLIGHT

## AUSTRALIAN TROOPS ARE ONCE MORE PLAYING BIG PART IN THE FIGHT AGAINST JAPAN

**STARTS TEST RUNS**  
SYDNEY, AUSTRALIA. — The nearly 7,000,000 people of this land "down under" have their long awaited news that Australia is "on top" of the Pacific war.

The invasion of Tarakan off Borneo, almost entirely an Australian show, was a tonic to a commonwealth that has fretted over being assigned a seemingly less important role against Japan in the past.

In reality in those slow, painful days when the Japanese were being turned back on New Guinea, Australia's role as a supply base was tremendous. Only recently, with the invasion of the Philippines offering a more direct supply contact with the United States, has Australia been able to concentrate on supplying its own forces.

But the public temptation is to assess war roles in terms of amphibious landings, ground bombardments, air raids and fleet fights. That is why Australians are cheering the Tarakan invasion.

Although the news came at the very moment the world's communication facilities were rolling out details of Hitler's reported death, some Australian papers managed to squeeze in the Borneo operation on page one after consistently consigning the New Guinea, New Britain and Solomon exploits of their soldiers to inside pages.

Australians are being told that the Tarakan operation is something more than a gasp for oil and a further bottling up of Japanese-held East Indies.

The Sydney Sun openly speculates that the Tarakan invaders from British troops in Burma the jaws of a pincer aimed at Singapore.

The commonwealth has supplied the United States between \$800,000,000 and \$900,000,000 worth of materials with which to wage war. Last year alone, she delivered to United States forces food sufficient for an army of 550,000, 2,000 pounds annually to a soldier.

### WERE PREPARED

**Bombproof Shelter For White House Was 50 Feet Underground**

WASHINGTON. Liberalization of censorship rules permitted printed reference to the existence of an air raid shelter 50 feet under the White House grounds.

The shelter was built immediately after the United States entered the war and nearly everybody in town knew it existed. But until now stories about it could not be published.

The shelter was built in zig-zag fashion. It has a "bombproof" ceiling about nine feet thick, made of concrete and reinforced steel.

### CAR PRODUCTION

WASHINGTON. The United States War Production Board said that "on the basis of available information 20,000 passenger cars will be produced late this year."

## STORY OF BLOODLESS CAPTURE OF A GERMAN TRAWLER BY A CANADIAN MINESWEEPER

A BRITISH PORT. The story of the bloodless capture of a German trawler by the Canadian Bangor-class minesweeper Thunder in the Bay of Biscay a few days before V-E day and how the Canadians boarded the enemy craft and sailed her home under her own steam, was released by the navy.

A Canadian prize crew under Lieut. Art Moore of Digby, N.S., removed the German crew and took command. For two days they awaited to keep the trawler up with an Allied flotilla on the rough 400-mile haul home.

Cheers and whistles greeted them as they steamed their prize into British harbor, the fourth enemy ship to be captured and brought to port by the Canadian navy in this war.

The H.M.C.S. Thunder, commanded by Cmdr. Herman Mackay of Halifax and Picot, N.S., was operating with other Canadian "sweepers" and the French navy when a low flying French plane, its pilot waving wildly, drew her attention to the enemy ship.

Thunder, part of the 31st Canadian minesweeping flotilla approached warily and saw the unidentified craft flying a white flag. Hails in various foreign languages brought no reply

### STARTS TEST RUNS

**Canadian Pacific Railway Is Trying Out Aluminum Box Car**

MONTREAL. — Canada's first aluminum sheathed box car has been turned out of Angus Shops here by the Canadian Pacific Railway and started on a series of test runs designed to determine its practicability as a model for replacement of rolling stock used up in war transport's hard service.

It weighs 1,200 pounds less than its steel-sheathed counterpart, a most important saving for the power revision it might make possible on long trains. In this experiment with aluminum the C.P.R. is continuing tests it started as far back as 1925 by equipping a passenger car with an aluminum roof, the life of which has proved comparable to a steel roof by subsequent observation.

The Angus-built pioneer presents a striking appearance since its aluminum sides, doors, roof, running board, brake step and hand brake housing all have been left the original color of the metal, a sharp contrast with the steel ends which have been painted the usual box car red.

### SHUT-INS DAY

**First Sunday In June Set Aside For Assisting The Sick**

An annual international day has been set aside for the remembrance of the sick and disabled. The first Sunday in June is observed for this purpose. International Shut-In's Day was conceived in the mind of a young Canadian, Ernest Barker. Some years later, with the assistance of a few friends, he formed the Shut-In's Day Association "International", to promote the day which falls annually on the first Sunday in June. The object of the association is to encourage remembrance of the sick and disabled. This organization has received the endorsement of the clergy the press and the outstanding leaders of our country in all walks of life.

It is to be hoped that the day will be fittingly observed in this province as well as in all parts of the Dominion. It will afford a great opportunity for our people to show a Christian spirit in helping those who are sick and maimed.

### AID FOR PEASANTS

MOSCOW. Foreign Trade Commissioner A. T. Mikoyan said in an interview in Pravda that the Red army, in a move to combat the threat of famine in Berlin and Dresden, had re-established free trade and now permitted German peasants to sell their extra produce at a profit.

### FOOD FOR HOLLAND

ROTTERDAM. Rotterdam welcomed its first incoming Netherlands cargo ship in five years when the 10,000-ton Van Der Capellen docked here. The ship was laden with food to ease Holland's critical food shortage.

**FAMOUS FRENCHMEN RELEASED**—Edouard Daladier, left, former prime minister of France, as he was liberated by American forces. With him is Maj.-Gen. Anthony B. McAuliffe, Paul Reynaud, Gen. Gamelin and Gen. Weygand.

**EMPIRE PRISONERS** LONDON. Aircraft of the Royal Air Force bomber and transport commands have so far brought back to England nearly 95,000 British and empire prisoners of war liberated in Europe. It was officially revealed.

### MAYOR OF BERLIN

LONDON. The Moscow radio said that Dr. Arthur Wener, a German architect persecuted by the Gestapo, has been named mayor of Berlin.

Buy War Savings Stamps regularly.

**EUROPE MUST BE FREE OF TYRANTS**—Prime Minister Winston Churchill in an address to the empire declared he was not going to allow "totalitarian or police governments" take the place of German tyranny in liberated Europe. Here he is looking very fit, in a photograph taken at 10 Downing St. on V-E day. With him is Admiral of the Fleet, Sir Andrew Cunningham.

**CANADA'S FIRST V.C. WINNER**—Their faces beaming, Lieut.-Col. C. I. Merritt, first Canadian to win the Victoria Cross in this war, and Mrs. Merritt, enjoy a few moments of relaxation after his long flight from overseas. Col. Merritt was recently liberated from a prison camp in Germany. After a brief rest in England, he arrived to be greeted by his wife and high military officials at the airport in Montreal.

## WESTERN ALLIES HAVE AGREED WITH SOVIET AUTHORITIES FOR MASS REPATRIATION PROGRAM

### CHURCHILL RESIGNS

**Elections Are Expected To Be Held On July 5**

LONDON. — The war in Europe won, Britain prepared to exercise the first principle for which she fought—free choice of a free government in free elections.

Winston Churchill, the man who for five years has personified this country to the world and to itself, technically laid down the tools by resigning as prime minister. But his act was merely a gesture to enable the election expected to be held July 5 to be fought on clear-cut lines. The result will remain locked in the ballot boxes for 20 days, until the servicemen's vote has been counted.

It ended the historic wartime government in which the one time dock worker, Ernest Bevin, and the one time errand boy, Herbert Morrison, sat in with the imperialist Churchill and the patriotic Anthony Eden to defend the rights of man symbolized by the ballot they now will use.

Mr. Churchill went to Buckingham palace to submit his resignation to the king. He returned and accepted the king's invitation to form a new administration.

It was announced that on Mr. Churchill's request parliament will be dissolved by royal proclamation June 15.

### IS STILL IN FORCE

**National Registration Is Being Used For Number Of Purposes**

OTTAWA. National registration is still in full force and effect, the labor department said. Persons 16 years and over must still carry their registration certificates and changes in address or marital status still must be reported. Persons reaching the age of 16 also are still required to register. The statement said the national registration was being used for a number of purposes in addition to the call-up for military service, which has been suspended.

"The Russians in Germany will be moved by rail or truck, or if the distance warrants, it will be by air."

### HOME UNDAUNED

WEIMAR. Germany. The home of Franz Liszt is practically intact although a block-buster fell only a few feet from it during an Allied raid. Some of the composer's manuscripts were removed to a bank safe after the first bombings of Weimar.

## WARNING IS GIVEN TO WATCH FOR UNEXPLODED BOMBS FROM JAPANESE LAUNCHED BALLOONS

OTTAWA. — Canadians living west of the Great Lakes were warned to watch for unexploded bombs dropped by big unmanned Japanese-launched balloons during the last several months.

Defence headquarters in making the announcement, said they were disclosing "sporadic long range balloon attacks," long kept secret for security reasons, in the interest of national safety and taking a chance on letting the enemy know that some of the balloons had reached this continent.

The army warned, however, that if casualties occurred they should not be connected with Japanese balloon attacks.

It was reliably learned from another source that one of the first balloons was discovered by the children of a prairie farmer.

The children had made a fire and were just about to throw bombs they had found into the flames when the farmer, a First Great War gunner, arrived. He snatched the explosives from the children, put out the fire and informed police.

Aircraft flying across western Canada and the western United States all carry flying orders to be on the watch for balloons. There have been occasions when R.C.A.F. planes have joined in the search for balloons reported sighted by ground outposts.

The defence headquarters statement indicated the balloons were set adrift in Japan and carried in wind currents at between 80 and 100 miles a day to North America.

"These attacks," said the statement, "are so scattered and aimless that they constitute no military threat. They should not be viewed with alarm."

Carrying a few small bombs, the unmanned balloons float without control, their main purpose believed to be to set brush and forest fires.

The balloons are gray, white or greenish-buff paper, about 35 feet in diameter. They are "known to have landed or dropped explosives in isolated localities." It was stated, but it was emphasized that the attacks "should not be viewed with alarm."

### POST-WAR CONSTRUCTION

MONTREAL. — Thousands of trained construction workers, now in the armed forces, may facilitate Canadian post-war construction work, it was said at the first session here of the royal commission on veterans' qualifications.
